

PLEDGE AID IN STATE'S GREATEST RESORT PLAN

REGION INTERESTS COMBINE TO BOOST VACATION BUSINESS

Experts Laud Locality as Land of Happy Vacations

Dreams of complete and harmonious co-operation in maturing plans to exploit the entire chain of lakes region in a huge publicity campaign seemed near realization last night when 175 representatives of the lake region assembled at Fred Elter's Hotel, Fox Lake, heard experts tell how to make this locality the most popular vacation land in the mid-west.

The dinner and meeting following was called at the instance of the Fox Lake Chamber of Commerce, for the purpose of meeting with members of the Fox River Valley Power Boat association, the Antioch Business club and resort owners and interested residents throughout the lakes region to further development and publicity projects.

Country Ideal, Says Thorney

"This locality has every recreational facility," C. Edward Thorney, director of the Outing and Recreation bureau, told guests. "Your only real task is to tell the world what you have—advertise." Mr. Thorney and his assistants direct over a half million tourists each year from their bureau alone, so he must know what he is talking about. Pledging complete co-operation, the speaker made appeal for complete data regarding the region. Questionnaires are to be sent out soon, and these should be filled out and returned to the bureau at once. The service is free.

Westbrooke Enthusiastic

One of the most enthusiastic speakers at the meeting was Milo E. Westbrooke, manager of the Out-door Life exposition to be held at the Chicago Coliseum the week of May 6 to 11. Westbrooke, promoter of all kinds of outdoor events, including the great blossom-time week in Michigan and autumn color week, likes the Illinois lake region. "You have everything here—and what are you going to do about it?" he asked at the close of his inspiring address. "Sell your facilities to the vacationists through advertising," he advised, and the verdict was unanimous when he asked for hands of those who favored the program now being planned.

FAVORS PLANS

Responding to an invitation to attend the dinner last night, L. B. Werden, Chicago commission merchant and owner of Werden's Woods on Fox Lake, in the following letter expressed the sentiment that was evident to all who attended:

Please present my heartiest good wishes for the success of your plans and assure those who are giving of their time that I will be in accord with them in any project which is developed at your meeting. I am sorry that it will be impossible for me to be with you at the banquet.

Yours very truly,
L. B. WERDEN.

Chamber of Commerce, introduced speaker after speaker of prominence, everyone an enthusiast over the plan of exploiting the lake country as "the land of happy vacations."

Among the speakers were: President C. L. Kuttel of the Antioch Business club; local club secretary, A. M. Krali, who outlined the activities of the committee thus far; Commodore Klinder of the Fox Lake power boat club announced the season's program of races; Mr. Blaser of the Kraus Realty company, spoke of the developments in the Camp Lake locality; Peter Fretz, mayor of McHenry, and F. R. Hews, director of the boat club, spoke regarding the Fox river dam and the utilization of the appropriation of \$175,000 made by the general assembly in 1927, for development purposes around the lakes and Fox river.

ANTIOCH PUPILS PLAN TO ATTEND SCHOOL FAIR IN GURNEE

All-Day Program Has Been Arranged For April Twentieth.

Seventh and eighth grade pupils of the Antioch grade school and their parents have been invited to attend the school fair which will be held in the Gurnee High school building, Saturday, April 20.

Projects to be on exhibition should be placed and delivered by April 19, and work from the various schools in the county will be judged early Saturday morning. Ribbons will be placed at noon.

The morning program, for the most part, will consist of stunts by several of the schools. T. A. Simpson, county superintendent of schools, has arranged a surprise program for the afternoon. Sandwiches and milk are to be sold at noon, so children will not have to carry their lunches unless they desire to do so.

The big utilities companies, including R. C. Amis, general passenger agent of the North Shore Lines, P. T. Moran, director of publicity of the North Shore, Mr. Thorney of the Outing and Recreation bureau, all pledged fifty-fifty co-operation with citizens here in any worthy development project they might inaugurate.

Frank Hamilton, Lake Villa contractor, expressed the general sentiment of that community as being in full accord with plans as stated.

The last speakers were "Salty" Bell, yachting and boating editor of the Chicago Daily News, and H. L. Richardson, well known Chicago yachtsman and sportsman.

In the opinion of those who attended, last night's meeting marked the inauguration of a regional project that will be far reaching in scope and will surpass any similar development program ever attempted in Illinois.

STAR WILL HOLD INSTRUCTION NEXT MONDAY NIGHT

School of instruction will be held by the Eastern Star lodge Monday night at 7 o'clock. Miss Mable Gregg, Waukegan, is to be the instructing officer.

TWELVE YEAR OLD BOY IS CHAMPION AT FARM SCHOOL

Clifford Fetzner, 12-year-old Allendale boy, won high honors in a free throw contest held at Allendale gym last week. Fifty shots were allowed each contestant. 25 at each basket, using a different ball at each basket. Clifford, a sixth grader, made 16 out of the first 17 trials, and finished the first set with 21 out of 25 throws. He finished with a total of 33 to win the junior championship.

ST. PETER'S WOMEN FOUND NEW SOCIETY; MRS. ROSING IS HEAD

Altar and Rosary Group Is Divided Into Four Teams.

Organization of an Altar and Rosary society has been effected among the women of St. Peter's Catholic church. Father Daniel Frayley helped organize the group last week.

Three names were presented for the presidency. Mrs. William Rosing was elected over Mrs. Lester Osmond and Mrs. Frank Hunt. For the office of secretary Mrs. James Dunn was chosen over Mrs. Frank Hunt. Mrs. Waters and Mrs. H. J. Vos were nominated for the office of treasurer, and Mrs. Waters was elected.

Volunteers who decorated the church for the Easter season were Miss Helen Trusch, Miss Patricia Kennedy, Mrs. Clark, Mrs. Hunt, and Mrs. Doyle. A collection of \$17.55 was taken at the meeting, and the money was used for the flowers Easter Sunday. It was agreed that members of the Altar and Rosary society should pay 25 cents monthly for dues. Forty-one persons who enrolled in the society were divided in four teams. The first team consists of the following: Mrs. Hays, Mrs. J. E. Eder, Mrs. A. Eder, Mrs. William Thelen, Mrs. Lester Osmond, Mrs. William William Rosing, Mrs. Mecklenberg, Mrs. Andrew Lynch, Mrs. John Knott, and Mrs. Girard.

Those on the second team are: Mrs. John Paclit, Mrs. John Dupro, Mrs. James Williamson, Mrs. C. Doyle, Mrs. Robert Webb, Mrs. Regan, Mrs. Frank Dunn, Mrs. J. Koukal, Mrs. Snyder, and Mrs. McCarthy.

On Team III are: Mrs. Frank Hunt, Mrs. Waters, Mrs. Brogan, Mrs. William Huber, Mrs. Anna Cernak, Mrs. Percy Chinn, Mrs. Rose Borse, Mrs. H. Sheehan, Mrs. Gagglin, and Mrs. Shedeck.

Team IV consists of Mrs. James Dunn, Mrs. Clark, Mrs. Kreusler, Mrs. Verkest, Mrs. E. Miller, Mrs. M. Golden, Anna Huhn, Mrs. H. J. Vos, L. L. Padlock, Mrs. Forbrick, and Mrs. Frank Shodeck.

Team I is to raise money to buy vestments for the altar. Team II will purchase cassocks and surplices for the altar boys. Team III will buy various things needed for the altar, and Team IV will buy copes.

By drawing it was decided that Team I should raise its money first; Team III, second; Team II, third, and Team IV, fourth.

Father Frayley spoke enthusiastically of the work to be done by the new organization, and outlined briefly some plans he has in mind.

TARBELL AND REGAN CHOICE OF VOTERS FOR JUSTICE POSTS

Anderson and Horan Grab Constable Jobs in Hot Race

In an avalanche of votes, the largest number polled here in eight years, William A. Rosing was elected supervisor of Antioch township Tuesday, defeating Frank B. Kennedy by 72 votes. Samuel E. Tarbell, veteran justice, was victorious in his campaign for re-election, and William Regan, Antioch merchant, was also winner for justice of the peace. Regan topped the ticket with the largest number of votes, a total of 623. Carl Anderson, Jr., garage mechanic at the Antioch Sales & Service, and James F. Horan, drayman, grabbed off the constable jobs, with total votes of 362 and 336 respectively. Burnette and Crandall were close to the winners with totals of 309 and 258.

Voters Cast 1,000 Ballots

Mr. Rosing received his largest vote in precinct one, the largest of the three polling districts, and where the candidate is best known. Mr. Kennedy's largest vote also came from Antioch one, 235 to Mr. Rosing's 371, but Kennedy carried his home precinct, Antioch two, 215 to his opponent's 132. It is worthy of note that an even thousand ballots were cast for the supervisor candidates, three votes less than were polled here eight years ago when Barney Naber was first elected to that office.

Light Vote in No. 3

Only 48 votes were registered in Antioch 3, the town's newest polling place created by an act of the board of supervisors last June. The best vote-getters in the new precinct were Rosing, 33; Frank J. Hunt, 34; and Milton Crandall, 27.

Gravel Tax Wins

The proposition for special gravel tax to improve the Hughes-Miller, Sylvan road and the County Line road, carried in each of the three precincts, 645 favoring the measure and 274 voting against it.

Former Millburn Boy To Be Honored Here By Future Farmers

The sixth annual Father and Son banquet, sponsored this year by the newly organized Future Farmers of America, will indeed be a true father and son affair for one of the sons will come home this year to be honored for the splendid services he has rendered to agriculture throughout the United States. E. A. White, Chicago, who has for many years been chairman of the Committee on Electricity and its Relation to Agriculture, will come home to receive honorary recognition from the Agricultural Department of the Antioch High school. He will also be the principal speaker of the evening.

Mr. White is the son of David M. White of Millburn, who was honored last year for his services to this community. That his son should be selected as the one to be honored this year seems most fitting for the occasion.

The banquet is for the boys, who are members of the Antioch Chapter of The Future Farmers of America and their dads.

The banquet will be held Friday, April 12, in the high school cafeteria and will be served by the Home Economics class.

C. L. Kuttel, agriculture instructor, will act as toastmaster.

MURRIE'S QUINTET WINS TOP PLACE IN INTRA-MURALS

Intra-mural basketball tournament games at the Antioch High school were brought to a close Monday night when Murrie's aggregation defeated Cremlu's team. The intra-mural teams were captained and coached by senior members of the school basketball quintet.

Members of the various intra-mural aggregations were chosen by lot. On Murrie's team were Mastine, Kennedy, Masck, Ullman, Burnette, and Atwell. On Cremlu's team were King, Hurley, Martin, Hahn, Hughes, and L. Hanke. Folbrick's team beat Sheehan's for third place.

WENTWORTH'S SHOP NOW BOASTS PROPER AND FITTING LABEL

Bert Ray Wins \$5 in Gold For Suggesting Term of "Cupboard."

Wentworth's sandwich shop no longer is an eating place without a name. No longer must it be assumed to face the world because it isn't properly labeled. Hereafter the shop is to be known as Wentworth's Cupboard.

The name was suggested by Bert Ray in a contest which closed Saturday night. Mr. Ray was given \$5 in gold. Second and third prizes of \$2.50 and \$1 in gold, went to Ira Woodward and Kenneth Mortensen, respectively. Mr. Woodward suggested Wentworth's Coffee Cup, and the Mortensen youth offered Wentworth's Wee Inn as a name.

Names written on the ballots were of all kinds. At least 12 wanted Wentworth's Eat shop. One man asked that the prosaic term, Wentworth's Hot Dog Stand, be applied. Box Car de luxe was scribbled on one vote, while another suggestion was Wentworth's Hot Dog Kennel.

Judges were Otto Klass, L. O. Bright, and Miss V. Ludel Boden.

Fox Lake Results

George Lester and Chris Lutz were winners for justices of the peace over D. Velleck. Lester received 273 votes, Lutz, 303, and Velleck 251. Joseph Riggs, Fox Lake marshal, and Louis Kree were elected constables. Following is the vote: Riggs, 351; Kree, 221; William Walk, 136; Henry Steig, 189. Gravel tax in Grant township carried 322 to 232. Frank Stanton, supervisor, was elected last year.

Lake Villa Returns

Similar to the lineup of candidates in Antioch, Lake Villa had three aspirants for justice of the peace and seven entrants in the constable race. Charles Keller and L. G. Brickman were successful for the former office over J. M. Cannon. The balloting was as follows: Keller 183; Brickman 238; Cannon 169. Keller was re-elected.

Sidney Dibble was re-elected constable by a total vote of 125, and Verne Nixon's name was written in the ballot 187 times, electing him also to the constableness over five opponents who received votes as follows: Harry Nickerson, 103; Harry Sorenson 111; Charles Foster 51; James Keeling 9; Harry Wedge 31. The term of Harry Stratton as supervisor does not expire until next year.

Newport Township

David Van Patten, supervisor in Newport township, decisively defeated Edward A. Martin, who tried a comeback but failed 294 to 127. Van Patten won over Martin by 65 votes two years ago when he first gained the office.

Ferdinand Knox and R. C. Gillings were elected constable in a close race in which George Doyle, who now holds office, was defeated. Van Patten carried his full ticket into office.

The results on constable were as follows:

BARTLETT, JENSEN HEAD TICKETS FOR MAYORALTY HONOR

Candidates File Monday; Election Tuesday, April 16

Petitions filed with Village Clerk Harry A. Isaacs, late Monday assured the appearance of two slates of candidates on the ballot to be presented to voters at the village election April 16. Due to some cause or other, probably the excitement attending the annual town election, extreme quietness reigned in village political circles until the activities began in earnest with the filing of the petitions Monday.

Peoples vs. Independent

According to the petitions, Dr. G. W. Jensen, board member, is candidate for village president on the Peoples ticket. As running mates as trustees on the same ticket are Charles N. Lux, Frank Dunn and H. A. Shultis. Shultis and Dunn are for re-election. For police magistrate, Harold Gelstrup is candidate for re-election to the office he has held for the last nine years. No entrant for village treasurer will grace the Peoples side of the ballot.

George B. Bartlett heads the Independent ticket for mayoralty honors, and the trustee candidates are Chas. F. Richards, J. H. Drom, and H. P. Lowry. J. Ernest Brook, for treasurer, and A. G. Watson, for police magistrate, complete the slate of candidates on the Independent side of the ballot.

It is predicted that a lively contest will be waged between the two slates of candidates. George Bartlett, veteran bank official and former mayor, will find a worthy opponent in Dr. Jensen, world war vet and past commander of the local American Legion post. Both are men of high standing in the community and each has taken a keen interest in civic development projects.

Pollock Has Commendable Record
The retiring president, S. E. Pollock, Antioch florist, together with the board of trustees, has hung up a record for community progress that will be difficult to equal. Handicapped by lack of funds, the incoming village board will face a regular man-size job if development projects are to continue in the future at the pace set by the Pollock regime during the last two years.

A review of the work done during the last term shows that five Antioch streets have been paved; an ordinance providing for the construction of sidewalks along all important streets was passed and the work is now nearing completion; extensions of sewer and water mains were made to include Craig's and Thorn's subdivisions; the first audit of the village books was made, and it has been voted to have such audits made each year; a building code was passed and is now in actual operation in the village; and many other measures of a constructive nature have been put into operation.

Mayor Pollock also feels that because of the press of his private affairs and other public interests that he should decline a second term as president. Mr. Pollock is president of the grade school board, and with the activities attending the erection of a new school building here last year and the many duties connected with village business for the last two years, he has hardly had a moment to call his own. Mr. Pollock has been busy, but he leaves the office of village president with an enviable record that must be commended.

follows: Knox 234, Gillings, 243, Doyle 191, Frank Edwards 14. Justice: John Irvin 231, N. L. Brown 227, both of whom were elected. A. Torin 87 and F. G. Lucas 148. George Thompson was elected school trustee with 260.

Dame Fashion certainly smiled as persons wended their way to various churches throughout the country (Easter morning.) But Dame Fashion didn't smile much in Antioch—rain, sleet, and snow fell during the morning hours, the mercury dropped, and milady's spring frocks, coats, and hats remained at home, while winter coats, dark hats, and goloshes once more were worn to church.

Where the sun was shining, especially in New York city, latest creations of fashion were seen.

Skirts are Short

Short, very short skirts ruled the day, with ultra-marine blue frocks half hidden under black and white coats predominating in every block. There were hundreds of tweed ensembles topped off with absolute colored hats that made little patches of bright yellow in the crowd. Dark red was popular both in dresses and in hats, and extremely high French heeled shoes in black, tan, and snake skin topped a tattoo on the sidewalks that was matched by the annual airing of thousands of canes in the hands of their male escorts.

It was a great day for the male as well as the female of the species. Silk toppers of every height and vintage, some shiny, some with dents, and others that had been under the iron too often, bobbed up and down the avenue as the wearers swung their walking sticks dangerously, strutting as only gentlemen clad in morning coats and striped trousers can strut. Here and there a younger blood was noticed in a formal dark coat without tails, but all worthy of the attention of society photographers were the regulation striped trousers.

The customary efforts of advertisers for profit by the Easter parade were very much in evidence. A half dozen "sandwich" men, these old derelicts who cruise about between two boards, marched solemnly up and down the sidewalks. Five stunningly dressed girls puffed industriously at a certain brand of cigarette as they giggled their way down the street.

very wealthy worship, and across the avenue a block below, at St. Patrick's cathedral, great throngs overflowed into the street eager for a peek at their aristocratic cousins. As the church doors opened and emptied their pew holders many of the worshippers faced the camera men with upturned noses and frowns.

Over on Park avenue at St. Bartholomew's, the wealthiest church in the city, the Easter congregation filed out a private entrance in the rear, but many soon reappeared on Park avenue in a smaller parade than 5th avenue could boast of this Easter.

A half mile from where Park avenue dives into Grand Central station the exclusive east sliders were in all their sheltered glory. Here there was much doffing of toppers and even the poms had their Easter outfits.

ALL ABOUT WHAT THE
LITTLE CHILDREN ARE
DOING IN ANIMAL WORLD

BY V. LUDEL BODEN

"Boo-hoo! Boo-hoo!" cried little Johnny Rabbit. Yessir, Johnny Rabbit cried right out loud in school. Can you imagine that?

"I can't get this lesson," the little second-grade Rabbit boy said.

"Don't cry, Johnny, and don't say 'can't,'" the teacher said.

"Yes," Johnny replied, "but you said if we didn't get our lessons we would have to stay after school and work."

The teacher told Johnny that she was sure that he could get his lesson, for he never had trouble, so she told Johnny to go in a study room by himself, put on his thinking cap and think very, very hard. And Johnny said he would try.

In a few minutes the teacher, Miss Pupple, had some extra time so she thought she would go to see if she could help Johnny, or at least find out what the trouble was. Johnny was sitting there all by himself, with his nose wrinkled up, and with his thinking cap on his head.

"Such a funny, funny face as you are making," Miss Pupple said. "What can't you understand?"

"Can't understand any of it and I can't tell which is upside down and which is right side up of the book."

Miss Pupple looked at the book, then she laughed and laughed and laughed.

"Why Johnny," she said, "no wonder you cannot understand your lesson. Where did you get this book?"

Johnny said that he had gotten the book on Miss Pupple's desk. He explained that she told the boys and girls to turn to page 43 and study, and so he turned to page 43 but couldn't study. Guess why. He had a book all written in German! Not a word of English in it, and here Johnny thought it just a difficult lesson which he couldn't understand, and he was going to have to stay after school! But Johnny is only in the second grade, so he couldn't be expected not to get mixed up, could he? Johnny found the right lesson and studied without any trouble.

When Miss Pupple went back in the room the animal children were very, very quiet, so Miss Pupple told them they could play bean bag. Each row had a bean bag and before long there were bean bags being thrown right and left and left and right and up and down and down and up. Johnny Ape, the little monkey boy, in excitement grabbed a bottle of ink instead of a bean bag, and he threw that bottle of ink just as hard as he could throw it. Splash! Crash! There was ink all over the wall.

"OH-H-H-H-H-H!" Johnny Ape cried.

"OH-H-H-H-H-H!" the other boys and girls said.

Just then Miss Pupple came into room.

"What on earth has happened?" she wanted to know.

"I grabbed a bottle of ink instead of a bean bag, by mistake, and look what I did," Johnny Ape said.

"I can see what you did, all right," Miss Pupple said. "I am glad that you were so truthful about it. Help me use some ink remover on the wall, then I don't believe any stains will be left."

So Johnny Ape and Miss Pupple took off the ink stains, and Johnny promised that whenever he wanted to play bean bag, he would always, always, always look and see what he was throwing.

But Johnny Ape didn't want to play bean bag any more that day.

DEPENDABILITY

KNOWING that you live in a community where you can depend upon the folks to do as they say they will do, folks that always play fair in social as well as in business life, makes life really worth while. As you think it over, you will find that the average folks in this community are dependable. With dependable folks as a basis, there is no reason why we can't make this community the business and the social center of this entire territory. **LET'S DO IT!**

MC DOWELL TO COME TO ANTIOCH PALACE AGAIN THIS WEEK

Pinkie Mitchell's Fighters Are Furnishing Opposition.

"Cream of the Cream City Fighters" is the way in which Promoter Dick Macek has advertised the Milwaukee fighters from Pinkie Mitchell's gym who will come to the Antioch Palace Friday night to meet some of the best of the Palace regulars.

Red McDowell, Wankegan, and Frank Loomis are the headliners on the card this week. Where McDowell is, there is bound to be action, and reports from Mitchell's gym are to the effect that Loomis is a whiz. Whiz versus Whiz—and what's to be expected? These men are in the 165 pound class.

Bad Labus, another Palace go-getter, and Fred Weibel (135 pounds) will furnish entertainment in the other feature bout. For the double semi-winners the fighters are: Donn Conn, Wankegan, vs. Willard Munsell, 115 pounds; and Ernie Jokinen, Wankegan, vs. Pete Miller, 160 pounds. Preliminary bouts will be with the following men staging contests: Len Krug, Burlington, vs. Lloyd Barber, 135 pounds; Oscar O'Hannlon, Wankegan, vs. Bobbie Gallino, 111 pounds; and Ray Krug, Burlington, vs. Ernest Evans, 147 pounds.

Better Than Usual

Even better than usual were the Palace fights of last Friday night. Just as Red McDowell is expected to furnish thrills this week, he furnished plenty of them last week, even if he was defeated by Bud McArthur after four rounds of slugging. Never has there been a harder fight in Antioch, and never has there been a fight which aroused such excitement in the crowd. Nobody was certain who would be declared winner. The bout was a close one. McDowell usually has his own way, but he was surprised to find that McArthur expected to have his own way, too. McArthur did take some hard punches and some of them took effect. McDowell struggled in an attempt to get a knockout, but he couldn't work things the way he wished.

O'Hannlon Wins Again

Four rounds were needed by Oscar O'Hannlon before he could be declared victor over Ray Conti. O'Hannlon is an up and coming little fighter and he forces battling, craves actions and gets it.

Harry Leggett was winner over Jack Derr in another four round battle. The fight was pretty even throughout, but when the final going was sounded, Derr was about through putting up much fight, for he was in a stunned condition.

Ernie Jokinen and Floyd Strohecker exhibited some fast work. Jokinen slackened his speed somewhat toward the last but he landed some hard blows.

Another Four Rounder

Lon Bruckman, who is noted for his hard hitting, was victorious over Meyer Dreger in a speedy four round affair. Bruckman was easily the winner in the fourth, but during the three periods he held his own in good style.

Leo Leggett needed only the usual three periods to get the decision over Leo Huffer. It was in the final round that Leggett did the work necessary to win.

Red Schneider using his left to the best advantage possible claimed a victory over Young Gordon.

"Counterfeit Miracles" Is to be Presented As Lyceum Number

A hundred mysteries and secrets gathered from the four corners of the earth, plus youth, talent, art, humor, wit and sophistication go to make what is, according to the leading theatrical and art critics, the most remarkable and entertaining mystery show of this decade.

The DeJen program is to be given as the final number on the Antioch High school lecture and music course, in the school auditorium Thursday, April 11. DeJen presents "Counterfeit Miracles." Assisting will be Lucille Tustin.

What Herrmann and Keller were to the days of horses and buggy, DeJen is to this age of aerostatics. He was the first to depart from the old school of Mystery. His independence of thought and ingenuity have enabled him to keep pace with a modern world resulting in the fact that today DeJen is the foremost exponent of a new era in the Art of Mystery. He has created a new style in harmony with progress and modern thought, affording a mental stimulus to an entertainment-loving public.

Vaudeville is Coming to Crystal Theatre Wednesday Night

"Because She Loved Him So" is the comedy to be presented Wednesday night in the Crystal theatre by the LaForte players. The company consists of eight persons. The vocal selections will be features. A sound movie, "Behind Closed Doors" is to be presented.

Saturday of this week Rin-Tin-Tin will star in "The Million Dollar Collar." "The Lone Wolf's Daughter" with Bert Lytel will be shown. Rex, the King of Wild Horses, is to play in "Wild Blood" Tuesday night.

ANOTHER PARTY IS TO BE HELD

Although believed by many that the weekly card parties in the Danish hall were to be discontinued for the winter with the playing Monday night, it has been announced that at least one more party will be held.

TALKS AND PLAYS

Piano numbers, and a discussion of old folk songs and the relation of old airs to popular songs of today were featured by Hans Von Holwede when he entertained the pupils of the Antioch Grade school Thursday morning.

PALACE DANCE NIGHTS GROW MORE POPULAR; WRIGHT IS COMING

Wyman Players Please Hundreds Last Week; Booked Again.

Antioch Palace dance nights are becoming more and more popular as the season advances. This week will find Jack Wright and his Ohioans furnishing music both Saturday and Sunday nights. Jack Wright is well-known here and with his musicians should be a big drawing card.

"By" Wyman and his Campus Band of nine pieces were at the Palace last week, and dancers are awaiting the return of this orchestra May 25 and 26. Wyman's band is one of the best that ever played in this region. Their waltzes are soft and soothing—that dreamy music one reads about. Other numbers are lively and spirited. And who couldn't dance with such a peppy band playing such peppy music. And when we say MUSIC, we mean MUSIC—not just jazzy bursts of attempts. Little novelties and vocal refrains were unusually clever. The personnel of the band follows: B. B. Wyman, Ralph Wyman, Bob Herick, Marvin Wetzel, Howard Pulver, Johnny Hadsall, Irvin Grasshuggs, Palmer Whitney and Ray Hanchuayer.

TENNIS PLAYERS ARE ORGANIZING NEW ASSOCIATION

Plans for a tennis association are being drawn up at the Antioch High school. The committee named to draw up by-laws and make arrangements for permanent organization, consists of Christine Ullman, Louise Simons, Miss Leona Miller, and L. W. Peterson. Although the indoor court is being used at this time, the outdoor court will be made ready as soon as weather permits. It is probable that a tennis tournament will be held later in the spring.

Chapters from the story of one's life. This is the theme about which the Rev. A. M. Kahl will build his Sunday morning sermons during the month of April. The sermon topic next Sunday will be "The Discovery of Myself." The services are to be at the same hour unless Antioch officially adopts daylight saving time.

Sunday evening sermons during the month will be plain talks from the book of Isaiah. * * *

Many who were unable to attend church Easter Sunday due to the storm will want to plan to be there next Sunday. Easter Day was a fine day inside. After all as a man thinketh in his heart so is he. Mr. Shakespeare once said: "Nothing is either good or bad but thinking makes it so." That means that it all depends on how one thinks about things from a Christian standpoint or otherwise.

You are welcome to any or all of the services of St. Ignatius' church. If you have no church home why not try to find one? The Easter offering will go to improve the church property this year.

TALKING PICTURES ARE BEING SHOWN AT THE ANTIOCH

Talking pictures! That's what the Antioch Theatre has to offer now. The announcement was made this week by Fred H. Swanson, proprietor of the amusement house.

Saturday night the picture to be shown is Ken Maynard in "Cheyenne." The feature of the evening, however, will be George Dewey Washington, famous baritone singer bringing popular "picture songs."

Sunday and Monday the Antioch Theatre is showing a sound picture, Ronald Colman in "The Itasca." The novelty for the two nights will be George Edwards' "Song Revue" in color and voice.

Wonder who's the Champion Wick-Trimmer

SAW a picture of a fellow that won a hand mowing contest in New Hampshire. He swung a scythe over a plot 20 x 50 feet in 4 minutes and 19 seconds. And he didn't even wilt his white collar.

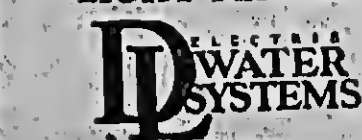

Wonder how many lanterns he could clean, trim and fill in an hour. That's an old-fashioned pastime, too. I'm willing to bet him one thing, anyhow. I'll bet he can't light up his house, barn, garage, chicken house, corn crib and barnyard with lanterns as quick as he could do it with Delco-Light. And even if he could light up the whole place that way, he'd be scared every minute the place'd go up in smoke.

Vol. II

Thursday, April 4, 1929

Published in the interest of the people of Antioch and vicinity by H. R. Adams and Co. H. R. Adams, Editor Rex Bonaer, Mgr.

After the weather last Sunday and Monday, we have fully decided to stick to our red hannels for a while yet.

It may be that April showers bring May flowers, but it is the May showers that bring June brides.

THINK NOW of the odd jobs around your home that you said you'd do this spring. Painting the house, repairing the fences, patching those small leaks on your roof—now is the time to get started. If we can help, just let us know.

When a man

boasts that he runs things at home it is probably the vacuum cleaner.

Many a friendship has been broken because of broken fences. Got any on your place that need fixing? We have a fine big stock of cedar posts, steel posts and wire fencing to take care of your needs.

Think what they missed. Solomn never used a safety razor. Caesar never smoked a Lucky Strike. Cleopatra never got \$1,000.00 for hoisting a beauty cream. Shakespeare never lived under a MULE HIDE ROOF.

Uncle Ned says: "Spanking a girl after she is sixteen doesn't do a bit of good, but it's a lot of fun."

Pretty soon they'll be with us again—

(we mean those pesky "flies"). Now is a good time to give us your order for screens. We'll make delivery any time you say.

Use VIGORO and have a velvety lawn, beautiful flowers, luxuriant shrubs and trees. Your property will be improved. It's value increased. VIGORO also produces early, crisp, delicious vegetables of all kinds. Get enough of this plant food now for every thing you grow.

AGREED ABOUT DICK

Representative Richard J. Lyons is well liked in Lake county—that's a settled fact. But read what a newspaper editor in Southern Illinois has to say about the eighth district man:

Among the younger set which has broken into the House body this year is Richard J. Lyons, Republican Representative from Mundelein, up in the eighth district. Lyons know a thing or two about politics long before he even saw the state house. He's a trim-looking fellow, giving every indication of being able to take care of himself. They say he got that way selling North Shore real estate in Lake county—at any rate he will not go to sleep on the job, because he's too full of action. Lyons began life as a messenger boy in Chicago, soon learned the language of the dots and dashes and was when still a lad handling markets and hot press wires. Later he took up the real estate game and his friends told us he has made big money and is still in the business, breaking the monotony of quoting prices and reading blue prints by diverting his attention to politics. We don't know how hard a fight he encountered in the primary, but we are going to predict that the fellow who keeps up with this bright young man in campaigning will have to arise before the sun and go some all day. Lyons has what might be called "political personality." His sir name is no drawback for there's fight in that word Lyons, and the given name of Richard J. is not a handicap for whatever the Richard may count in history the J may indicate anything from Jerusalem to Jeminy Christmas.

BOOSTING ALWAYS PAYS

Isn't it a pleasure to be with a group of persons who are boosters? Don't you feel that you're sitting on top of the world when you have finished a conversation with persons holding optimistic views? Maybe Harry Emerson Fosdick, Tim Skoyhill or some well-known lecturer has given you the feeling. Maybe a neighborly chat over the back lawn fence has made you sincerely happy. Maybe you have merely talked with a small child.

Recently a group of young men were in Antioch, a clean-cut "gang." The men were of a high type, the kind any community would be proud to claim. They weren't in Antioch long. As a business, these men play for dances and for other entertainments. They like their work—they know they are bringing pleasure to hundreds of persons each night—they're getting "kick" out of life—and from their conversation they think (and they know) that the world is rosy. Anyway, they're consciously and unconsciously making life worth while for those around them. They're boosters, which reminds one of what Roger Babson once said:

"Like other boys, I had always been told that I should be good and then I would be happy; but like other boys, I never believed it."

"I naturally tried to do as little as I could and get as much as I could. The change in my life came when I was making a study of the life of Sir Isaac Newton and came across his law of action and reaction. Briefly, this law is 'that for everything we do we get an equal reaction.'"

"If we boost others, others will boost us. If we knock others, others will knock us. If we help others, others will help us."

One doesn't have to be very old or very big to cause a great deal of excitement. That's what the Huber family found out last Friday. Peggy Huber, two years old, was out playing when, evidently she heard the fire alarm siren. Seemingly knowing that running is the proper thing to do when the fire whistle blows, Peggy started to run. At least she ran in her toddling way, and that is pretty good. Well, she didn't care much about the fire after she started, so she just kept going. Mrs. Huber missed her and was frantic. Passersby, seeing Peggy, didn't know what it was all about. After going several blocks, Peggy was taken back to her mother, her high chair, and her dolls. She was no longer a daring run-away.

With the word that George Bartlett and George Jensen are to head the village tickets, it seems as though the people of Antioch are bound "to let George do it."

It isn't the most pleasant thing in the world to discontinue sending THE NEWS to anyone, because that person has neglected to pay for his subscription. Some persons become angry if the paper is stopped, but subscription statements are mailed two or three weeks before the money is due. If not renewed, THE NEWS is stopped the first issue of the following month. This gives plenty of time to renew. Sometimes some of the oldest subscribers are offended if the paper is stopped; and others are displeased if it is not discontinued. A few weeks' time is gladly extended to old subscribers. REPORT ON IMMIGRATION

The report of Harry A. Hull, commissioner of immigration compiling the first half of the fiscal year, discloses some interesting statistics and seems to show that the immigration act is on the whole, carrying out the intentions of Congress and the American people. During the last six months of the calendar year a total of 258,190 aliens was admitted to the United States and at the same time 149,123 aliens departed from our shores. This resulted in an increase of the alien population of the country to the number of 108,767, an average of about 18,000 per month. For the corresponding period in 1927 the net gain in the number of our immigrants was 119,168, so that we received nearly 11,000 less immigrants in the last half of the calendar year 1928 than in the last half of the calendar year 1927.

In outlining the nationality of the immigrants coming in during the last six months of 1928, the report shows that immigrants from countries in the Western Hemisphere totaled 65,181 and from Europe 78,748. Of the immigrants from the American, 34,293 came from Mexico, and 8,168 from the West Indies, Central and South America, and Newfoundland. Nearly three-fourths of the European immigrants came from Germany, Great Britain, Italy, the Irish Free State and the Scandinavian countries, these countries contributing 21,758, 10,299, 9,466, 9,357, and 7,779, respectively. Compared with the same months of the year 1927, Canadian immigration decreased 21.6 per cent and European 2.1 per cent. The statistics also show a decline in arrivals from Mexico. While the number of immigrant aliens admitted from that country dropped 12.9 per cent during the year ending last June as compared with the previous year, there was a further decline in the following five months of 14.2 per cent and in December last the decrease amounted to 28.2 per cent, as compared with the corresponding periods of the year preceding.

The report would seem to indicate that on the whole our immigration laws are doing what they were intended to do. This is as it should be. The law is not perfect and there will doubtless be changes from time to time. But if the wishes of the American people are consulted, and they doubtless will be, changes in the law will be in the line of strengthening and not weakening it. What we want is a still further raising of the standard of immigration, so far as this is possible and a tightening of the lines to prevent the "boot-legging" of immigrants.

We hear a great deal about the army and navy as our two chief arms of defense, and rightly so. But our immigration law is another arm of defense. It is designed to prevent the inflow of those who may become enemies within the gates, of persons who may be out of sympathy with our ideals of government, and bent on destroying from within. The principle of restricted immigration has completely demonstrated its worth to the American people.

The sum of \$7,500,000 has been given to Yale for the study of man. If we want to know all about man wouldn't it be cheaper and quicker to ask the woman who owns one?

Scientist say that the average female house mosquito has 159 billion offsprings at the end of the year. Here is some real work for the birth control advocates.

Europe has opened up a college for the training of apartment house janitors. No doubt the school's motto will be "Keep everybody cool."

Two fleeing robbers in Oklahoma stopped to take a couple of drinks of bootleg liquor and when they woke up they were looking at the four walls of the county jail. Still when they woke up they were lucky to be able to see anything.

Learning to Do Without Things

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Bennett has a large tract of land in the rocky hilly timber lands of northern Mississippi, and one of his agricultural neighbors is a native Mississippian with a family of ten children. Forty acres of the two hundred and forty acres of rocks and pine trees which he owns are in meager cultivation. He and his wife and ten children occupy a shack of four rooms, and together they manage to eke out a fairly comfortable and contented existence. The little ledge of hillside which with unremitting toil the mountaineer has terraced and fertilized grows a little spindling corn, and toothsome sweet potatoes. A few lean hogs pick up a living

THE NEWS, too) forgot to pay his subscription and so a notice was sent that his paper had been discontinued. He came in a few hours after he received the notice, placed two dollars on the desk, and said: "Your name is mud if you stop my paper. I don't want to miss a copy." We like that man's attitude.

Don't think for a minute that children don't pay a great deal of attention to what is said by their parents—whether the fathers and mothers discuss politics, neighbors, or ham salad. The influence of political discussions at home was shown this week when the grade school pupils cast ballots election day. Rosing was chosen supervisor—in fact, with the exception of one, all the men who really were elected were chosen by the boys and girls.

Inside and outside things are happening at the Antioch Grade school. Outside the playground is being gotten in shape—swings are up and the merry-go-round was erected this week. Inside now cream net curtains have been placed at the upper parts of the front windows of the new building.

Telephones Where You Need Them

WHY climb up or down stairs or from one end of the apartment to the other when the telephone rings?

Have telephones where you need them. Extensions upstairs, in the back hall, in the kitchen, in one or more of the bedrooms—in any or all of these locations—will make it easy to use or answer your telephone wherever you may be.

Comfortable, convenient telephone service is the hall mark that stamps your home as truly modern.

Telephone extensions are inexpensive. Our Business Office will be glad to give full details of this service or any telephone employee will take your order.

His Little "Helper"

among the roots and ferns and thin grass of the uncluttered forest. There are chickens and dogs, of course, and a mule or two and a couple of cows about the barnyard, and a patch of hay land along the creek bottom. Forty acres at best is not much for twelve people to live upon even when the soil is fertile, but there is corn bread and bacon and potatoes and occasionally a few hogs or a steer and a dozen or two of eggs to carry down to the village to replenish the clothing which will wear out, and to get a little sugar and salt and tea to add to or to season the bill of fare.

"How do you ever manage to bring up so large a family and to exist on a place like this?" Bennett asked his neighbor one day when he looked over the rocky unfertile hillside.

"Wall," his neighbor drawled slowly, "it's mostly in learnin' to do with out things."

The greatest cause these days of discontentment and restlessness is the fact that people have not learned to do without things. I traveled across the continent not long ago from the Atlantic to the Pacific, and I saw all sorts and conditions of men and excepting when they were engaged in dirty manual work and sometimes even then, I did not see a single pair of cotton stockings. Every one wears silk stockings these days, even the poor people have ears and radios and fur coats, and having these things are unhappy because some of the neighbors have even finer ones than they can themselves afford, and they haven't learned to do without the things they want.

Mrs. Crane is a widow of very old

der meena who is working hard to earn enough money to send her young son to college. Young Crane is still working so hard as his mother though he is far better-dressed than she is. He has a little car of his own, and as soon as the lights in the fall grow chilly he slips into a fur coat.

"How did you happen to buy him the coat?" I asked the mother.

"Most of the other fellows here them," she explained, "and John was unhappy and made me more so until he got one."

He hadn't learned to do without things.

Ten Reasons why 300,000 careful buyers have chosen the New Chevrolet Six since January 1st

Ever since the date of its introduction, the new Chevrolet Six has swept triumphantly on to greater and greater heights of popularity. Value for value and price for price—buyers have compared it with other cars in the low-price field. And the result has been an overwhelming public preference—over 300,000 buyers since January 1st. And everywhere the enthusiasm is constantly increasing—for the new Chevrolet Six combines, as does no other car in the world, those ten great fundamental factors which careful buyers are now demanding in the cars they buy.

6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder valve-in-head motor, the new Chevrolet provides that smooth, quiet, flexible performance which is the distinguishing characteristic of the truly fine automobile. At every speed, the power is delivered easily, freely and without annoying vibration. You can ride and drive for hours without annoying rumble or noise fatigue—every mile a delight for both driver and passengers.

6-Cylinder Getaway

And in sheer brilliance of performance, as well as in smoothness and quietness of operation, the new Chevrolet Six is a revelation. An automatic acceleration pump results in remarkably fast acceleration whenever the accelerator is suddenly depressed. And a new high-compression, non-detonating cylinder head eliminates every trace of "lugging"—even when you have occasion to accelerate swiftly in high gear.

6-Cylinder Speed

Naturally, Chevrolet's powerful six cylinder valve-in-head motor might be expected to provide speed in abundance. But even more important than the speed of the new Chevrolet Six is the smooth, quiet, restful comfort you experience at every point on the speedometer. You can open the throttle wide with a feeling of complete security—and you come to the end of a full day's drive entirely free from the weariness caused by engine noise and body rumble.

6-Cylinder Power

The great reserve power of the new Chevrolet Six is a constant delight. The steepest hills are taken with ease. Heavy roads are negotiated without the necessity for frequent gear-shifting. And even at the higher speeds, there is always that feeling of confidence which comes from the knowledge that additional power is at hand . . . instantly available for whatever need may arise.

Modern Safety Features

The new Chevrolet Six is equipped with every modern safety and convenience feature—typified by a full ball bearing steering mechanism, non-locking 4-wheel brakes with separate emergency brake, foot controlled adjustable two-beam headlights, automatic fuel pump, theft-proof Electrolock, electric motor temperature indicator, and Fisher VV windshield and adjustable driver's seat in all closed models. As a result, it is one of the easiest and safest cars in the world to handle.

Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would be considered exceptional in any automobile. But in the new Chevrolet it is nothing short of sensational—for here it is combined with operating economy of better than 20 miles to the gallon of gasoline. As a result, those who can afford to own any automobile can afford to own and operate a Chevrolet Six!

Exceptional Riding Comfort

Another vital factor that has influenced hundreds of thousands in their selection of the new Chevrolet Six is its exceptional riding comfort. Built on a wheel-base of 107 inches . . . offering the deep-cushioned luxury of bodies by Fisher . . . and with the entire upper structure cradled on four long semi-elliptic shock absorber springs—it travels the roughest highways with amazing comfort. And its balance on turns and curves is

equally exceptional—for the rigid frame and the long springs reduce sideway to the minimum.

Beautiful Fisher Bodies

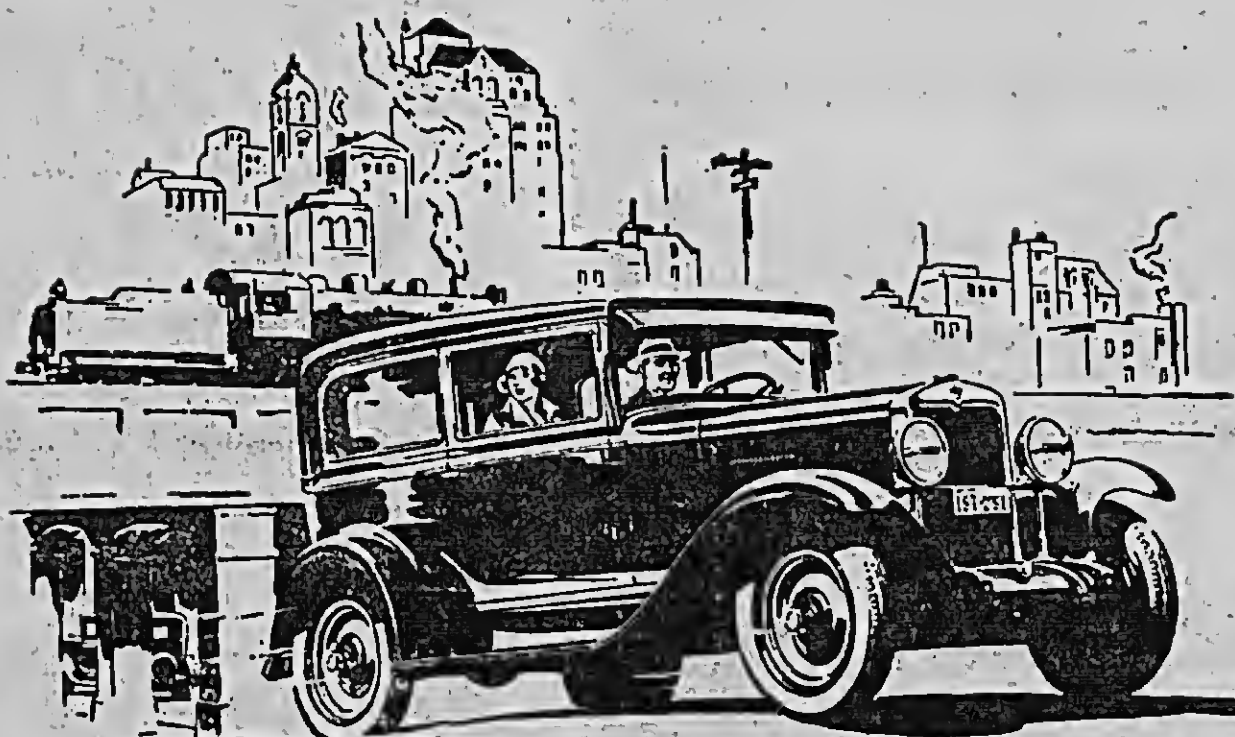

The marvelous bodies on the Chevrolet Six reveal, as never before, the matchless artistry that has made the Fisher name renowned throughout the world for excellence in coachcraft. Longer, lower and roomier . . . finished in attractive, long-lasting colors . . . and upholstered in rich deep-tufted fabrics that give to the interiors an air of custom elegance—they introduce into the low-price field an entirely new measure of style and refinement.

Proved Dependability

Before the new Chevrolet Six was presented to the public, it had been tested for more than a million miles on the roads of the General Motors Proving Ground. Never did a new motor car go into the hands of its owners more thoroughly proved in every detail. And now, reports of its performance on the highways of the nation pay glowing tribute to its endurance and dependability.

Amazingly Low Prices

Many people do not realize that this marvelous new six-cylinder Chevrolet is actually offered in the price range of the four. Compare total delivered prices as well as factory prices when determining automobile values. You will find Chevrolet delivered prices include the lowest handling and financing charges available.
